

MASONRY WALL

DOES YOUR SWIMMING POOL ENCLOSURE MEET THE REQUIREMENTS?

This checklist must be completed and returned with your application

| REQUIREMENTS - FENCES | YES | NO* |
|---|-----|-----|
| Is the minimum height of all walls 1.2m? | | |
| Does the masonry wall have a non-climbable surface to the exterior? | | |
| Is the masonry wall constructed of double course brick or single course concrete block with a minimum width of 20cm? | | |
| Is the masonry wall affixed to a 1.2 deep concrete foundation? | | |
| Is the fence free from any projections, rails, attachments or bracings that could facilitate climbing from the outside of the fence? (Note: Check your neighbour's fence to ensure compliance) | | |
| Do all components of the masonry wall conform with CSA S304.1 – Design of Masonry Structures? | | |
| Does the wall abut a building or gate? If yes, please answer the following: 1) if the horizontal elements are spaced less than 1.2m, is the opening between the masonry wall and the building/gate no more than 3.8cm? 2) if the horizontal elements are spaced in excess of 1.2m, is the opening between the masonry wall and the building/gate no more than 10cm? | | |

NOTE: The gates for this type of fencing is going to be of a different design and different material – please fill out the form that corresponds to your type of gate which can be found on the attachments for wood, chain link or metal fencing.

*If you answered "No" to any of the above, please indicate why. However, answering no, may result in the application not being approved.

OFFICE USE ONLY
